

The STUSB1602 software library for P-NUCLEO-USB002

Features

- Application examples including full software frameworks and associated vendor info file (.VIF)
 - source, sink, dual role port
 - source, sink, dual role port with support of vendor define message and other PD3.0 optional messages

Description

The **STSW-STUSB010** is an STUSB1602 software library to be used in association with P-NUCLEO-USB002 evaluation kit.

The library includes ready-to-use software frameworks for fast prototyping of most common application scenario such as: basic source, sink and DRP but also more complex use cases, which include optional features of PD3.0, for example VDM, extended messages.
